

NEW DRAWING

This diagram provides a perspective view of the machine from the side. It shows the internal mechanism where the drive shaft (13) is connected to gear 17, which in turn drives gear 19. This gear train operates lever 28 via link 26. Lever 28 is pivoted at point 24. Other components shown include lever 24, various structural frames (30, 35), and other mechanical details (31, 32, 33, 34, 36, 37, 38, 39, 40). The entire assembly is supported by a base (21).
